WINTER NEWSLETTER

THINGS TO DO IN WINTER

Time for new dog coat or horse rugs? Check our range in store
Herbicides and spray equipment available for weed control.

Rodents will sometimes head inside when it gets wet, see our selection of bait and traps.
A good time to plan new electric fencing or alter your existing fencing system while waiting for the rain to soften the ground.

Seeds are still available for pasture improvement.

CARROTS \$11
as we sourced a new
supplier

Seed is still available for
crop/pasture
improvement

NEW DOG TREATS
They have proven to be
popular
at only \$9.90 pkt

NEWS AROUND THE SHOP.

We are proud to be sponsors of Trinity interschool gymkhana.

Tegan, Chris, Mark and Tori had fun dressing up for a recent Purina Promo

Due to the hay shortage we may have to ration and limit supply to our customers on some hay lines. Sorry if this causes inconvenience but we wish to keep our supply going to our loyal customers as long as possible. Another option to hay is feeding barley straw, this will provide the necessary fibre component to your horse's diet. Extra nutrition in the form of a horse pellet or grains will also need to be added.

There are also other fibre options available in bagged products if straw is not suitable. Speak to our staff to find a nutrition plan to suit your horse's needs.
